

CAN YOU REMEMBER... ABOUT PLANTS?

Plants must have these two main things to grow. 

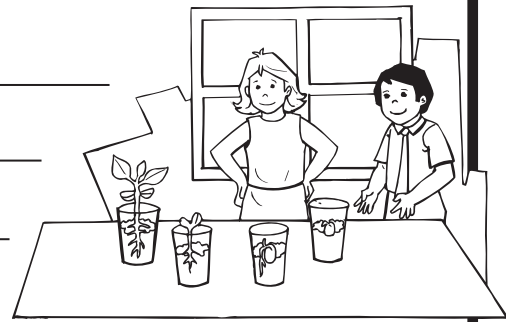

1

2

If you were to grow some new seeds from a packet, you would need to provide at least three things for them to germinate. List three suitable conditions for growth.

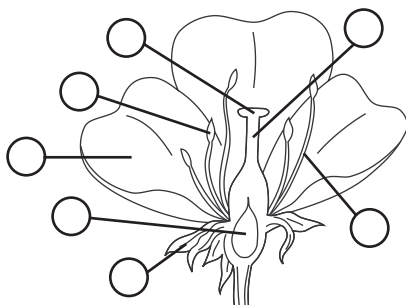

3

Kate waters her plants regularly and knows that they need light in order to grow. She places two of her plants on the windowsill and two on a table in her living room. She is surprised to find that those on the windowsill are growing less well on the windowsill, even though they get more light and the same amount of water as the plants in the room. Give two possible reasons for this.

4

Label this diagram with the parts of a flowering plant.

Put the correct letters in each circle.

a) petals

e) ovary

b) anther

f) sepals

c) stigma

g) stamen

d) style
